**INVASIVE SPECIES...**

Like the Lionfish, Burmese Python, Snakehead and the lovable Murder Hornet this new shotgun is here to disrupt the status quo. At FABARM we continue to push the evolution of clay target guns. The new Elos N2 RS Trap offers unprecedented technical features at a price that is truly ground breaking. You can't buy more performance regardless of the amount you spend. If your goal is to show how important you are by the amount you paid for your fancy gun, please buy someone else's shotgun. If you are interested in grinding up targets, the new RS is your gun. Like the much maligned Murder Hornet the new RS is not for cuddling, it means business.

**THURSDAY, JULY 16<sup>th</sup>**

**Program 8:30 am**

**ATTENTION SHOOTERS**

We are not planning any breaks between events. The only possible slowdown would be between the President's Handicap and Hawkeye Singles. We cannot start a singles squad if there is a long yardage squad still shooting on the trap beside them. That brings us to the transition of the Hawkeye Singles to the White Flyer Handicap. We are not allowing any 24-27 yard handicap shooters on the first flight of the White Flyer Handicap. If you wish to pre-squad on the first flight you will need to contact Sandra McCallister by email. The last item to discuss is – please do not squad on the last flight of any event, and then squad on the first flight of the next event. Thank you and have a great week!
